Audubon Area Community Services, Inc. Community Services Block Grant

2020-2021 Community Needs Assessment

I. EXECUTIVE SUMMARY

A. Introduction

Audubon Area Community Services, Inc., headquartered in Owensboro, Kentucky, is a 1975 consolidation of two agencies – one based in Henderson, the other in Owensboro – both founded in 1966. In 1975, the agency served the seven-county Green River area and had approximately \$1 million in funding and sixty-five staff members. Currently the agency serves the primary, seven county Green River District, however, Audubon has some program operations in forty-two counties throughout the Commonwealth, including the services areas of Barren River, Cumberland, Pennyrile, Purchase, Lincoln Trail, and Salt River, with over \$50 million in funding and more than 600 employees.

Audubon Area Community Services is the largest of twenty-three community action agencies serving the residents of Kentucky. Community action agencies are federally designated entities originating from President Johnson’s “War on Poverty.” As a community action agency, Audubon Area is a private, nonprofit 501(c)(3) corporation governed by a tri-partite, twenty-four member board of directors consisting of the consumers of agency services, elected public officials, and the private sector - business people, educators or representatives of local organizations.

In addition to its designation as a community action agency under federal law, Audubon Area Community Services, Inc. is also a Special District of the Commonwealth of Kentucky under KRS 65.005, meaning it is organized for the purpose of performing governmental or other prescribed functions within limited boundaries.

A Comprehensive Community Needs Assessment was conducted from July 1, 2019, through March 1, 2020, by staff of the organization in conjunction with the Community Services Block (CSBG) requirements and as a resource for AACS, and other collaborative partners, to ascertain critical needs in the AACS service area, as identified by community members, consumers, stakeholders, and service providers, to enable AACS to continue adapting programs and services to best meet community needs.

A community assessment is a systematic process for creating a profile of the needs and resources of a given community or target population” (Richmond & Mooney, 2012, p. 21). In addition, our funder, the Cabinet for Health and Family Services, Department for Community Based Services, requires the agency to complete a community needs assessment annually.

Section 676(b)(11), of the CSBG Act states “...an assurance that the State will secure from each eligible entity in the State...a community action plan...that includes a community needs assessment for the community served, which may be coordinated with community needs assessments conducted for other programs...” A community needs assessment establishes a profile of a community, noting both needs as well as community resources available.

Findings from this assessment will be used to assist Audubon Area Community Services to continue to deliver high quality services and promote the National Community Action Network Theory of Change Goals:

- Individuals and families with low incomes are stable and achieve economic security;
- Communities where people with low incomes live are healthy and offer economic opportunity;
- People with low incomes are engaged and active in building opportunities in communities.

The current service area has a span of seven counties which include:

Daviess County	Hancock County
Henderson County	McLean County
Ohio County	Union County
Webster County	

Audubon Area Community Services offers programming in the larger areas of Social Support Services, Early Childhood Education, Housing, Transportation, and Employment Services.

As of March 1, 2020, Audubon Area Community Services has a total of 88 worksite locations across a 46 county service area, employing 695 staff members and impacting the lives of over 41,000 Kentuckians all across the Commonwealth as we uphold our mission of:

“Helping people in poverty and beyond to reach self-sufficiency by changing lives through providing services, advocacy, and partnering to strengthen communities throughout Kentucky.”

Our central office is located in Owensboro, Daviess County at:

**Audubon Area Community Services, Inc.
1700 West Fifth Street
Owensboro, KY 42301**

Map of Current CSBG Service Area

B. Methodology

Multiple sources of quantitative and qualitative data were utilized to develop as clear a picture as possible on regarding the health, wellbeing, and self-sufficiency of our area. Quantitative data was primarily mined through the CARES Engagement Network platform, an online depository for demographic information from available standardize data resources located at <https://engagementnetwork.org/assessment/>. CARES Engagement Network utilizes sources such as the US Census Bureau (Decennial 2000 and 2010 Census and the American Community Survey 2014-2018 five year estimates), the US Department of Education, National Education Center for Educational Statistics; the US Department of Health and Human Services, Administration for Children and Families; the Department of Health and Human Services Bureau of Primary Health Care; the US Centers for Disease Control and Prevention; US Department of Transportation, US Department of Labor, Bureau of Labor Statistics; the Federal Reserve; and the US Department of Housing and Urban Development. In addition, numerous state, local and agency databases were referenced to gather a clear picture of the demographics of the service area.

Qualitative data was collected in the form of a survey of clients, consumers, stakeholders, employees, community leaders, faith-based representatives, elected officials, and board members of the Audubon Area Community Services CSBG service area. Surveys were collected between July 1, 2018 and March 1, 2019, in both written and online formats. The survey was accessible online via Survey Monkey via the Audubon Area Community Services, Inc. website, <https://www.audubon-area.com/>, under the Community Needs Assessment link located at <https://www.surveymonkey.com/r/TLDLGMN-CNA>, and requested feedback regarding needs of the community, contributing factors to poverty, and areas of focus for growth in programming.

Qualitative data was also gathered through the hosting of six¹ community forum group meetings throughout the region beginning January 28, 2020 through March 19, 2020. A wide range of stakeholders, representative of each county and community Audubon Area Community Services serves was invited to attend their county forums. Guided discussions were conducted and the verbal responses of participants were recorded and later analyzed to discern themes from participants regarding the impacts of poverty, strengths of communities, areas to improve and partners in the community to collaborate. Forums were moderated by Audubon Area staff who guided the attendees through a standardized questions, which included: *What are some of the greatest needs that low-income persons face in our community? What are the effects of these struggles/needs on families and individuals? Of the needs that we have identified, what do you think are the top 5 needs? What current solutions, ideas, or resources are now in place to work on improving these issues? And, what top three community improvements do you think our agency or the community should focus on?*

¹ The Ohio County Community Forum scheduled to occur on March 19, 2020 was cancelled and was unable to be rescheduled due to the COVID-19 outbreak.

Below is a list of focus groups as well as where and when they were facilitated:

1. Community Forum Group 1 - McLean County, McLean County Health Department, January 28, 2020.
2. Community Forum Group 2 – Daviess County, Logsdon Community Center, January 30, 2020.
3. Community Forum Group 3 – Hancock County, Hancock County Career Center, February 4, 2020
4. Community Forum Group 4 – Henderson County, Henderson County High School, February 14, 2020.
5. Community Forum Group 5 – Webster County, Webster County Senior Center, February 25, 2020.
6. Community Forum Group 6 – Union County, The Feed Mill Restaurant, March 5, 2020.
7. Community Forum Group 7 – Ohio County, CANCELLED DUE TO COVID-19 OUTBREAK.

The research, analysis, and writing of this Community Needs Assessment were performed under the direction of Brandon Harley, Deputy Chief Executive Officer of Audubon Area Community Services. Community Forum Group meetings were coordinated and conducted under the direction of Angela Ditch, Community Services Manager. Finally, survey data was gathered via a survey located at <https://www.surveymonkey.com/r/TLDLGMN-CNA>, and maintained by Community Action Kentucky (CAK), a statewide association representing and assisting the 23 community action agencies throughout the Commonwealth.

Summary of Findings

Quantitative Data Summary findings from sources:

- **216,152** people live in the **2,597.32** square mile report area defined for this assessment according to the US Census 2014-2018 5-year estimates, an **increase of 424 persons** from the service region in the last year (US Census Bureau, American Community Survey. 2014-18);
- US Census Bureau, ACS (2014-2018) indicates that gender breakdown for the area is **49.12%** male, and **50.88% female**;
- The racial breakdown of our service area is **90.8% Caucasian, 4.9% African American; .9% Asian, 0.7% Other Race, and 2.5% multiple races** (US Census Bureau, American Community Survey. 2014-18);
- There are **84,923** households in the service area (**a decrease of 205 households** from last estimates), **67.66% were family households, while 32.34% were non-family households** (US Census Bureau, American Community Survey. 2014-18);
- **23.80%** of our total population in the service area is under the age of 18, **6.27%** is under the age of 5 years of age; and **16.67%** is over the age of 65 years of age (US Census Bureau, American Community Survey. 2014-18);

- **17.81% of the service area population live at or below the Federal Poverty Level (FPL), and 25.23% of all children in the service area live at or below the FPL (over the statewide average of 24.40%)** (US Census Bureau, American Community Survey. 2014-18);
- Population in Poverty by Gender: **16.37% Male and 19.19% Female** (US Census Bureau, American Community Survey. 2014-18);
- Population in Poverty by Race: **16.28% White/Caucasian, 35% Black or African American, 24.96% Asian, 17.45% Native Hawaiian/Pacific Islander, 26% "Some Other Race", and 36.53% Multiple Races** (US Census Bureau, American Community Survey. 2014-18);
- Population in Poverty by Ethnicity Alone: **42.05% Hispanic/Latino, and 17.10% Not Hispanic/Latino** (US Census Bureau, American Community Survey. 2014-18);
- **59.23%** of the students in our services area qualify for free or reduced lunch (National Center for Education Statistics, NCES - Common Core of Data. 2016-17);
- **12.53%** of the population live in an areas of the service region with low food access (US Department of Agriculture, Economic Research Service, USDA - Food Access Research Atlas. 2015);
- **13.8%** of the service area population receive SNAP Benefits (US Census Bureau, Small Area Income & Poverty Estimates. 2015);
- **24.22%** of households in the service area experience a high household cost burden (housing costs exceed 30% of total household income) (US Census Bureau, American Community Survey. 2014-18);
- **24.59%** of occupied housing units in the service area contain one or more substandard conditions (US Census Bureau, American Community Survey, 2014-18);
- Median household income in service area counties, excluding Hancock County at \$52,019, and Daviess County at \$49,836, are under the state median income level of \$48,392 (US Census Bureau, American Community Survey. 2014-18);
- **6.43%** of households in the services area have no operational motor vehicle (US Census Bureau, American Community Survey. 2014-18);
- The unemployment rate in the area is at **3.7%**, a decrease from 4% last year (US Department of Labor, Bureau of Labor Statistics. 2019 - December) ;
- **12.62%** of the population do not have a high school diploma (US Census Bureau, American Community Survey. 2014-18);
- **18.19%** of the population aged 25 and older in the service area have obtained an Bachelor's level degree or higher (US Census Bureau, American Community Survey. 2014-18);
- **5%** of the service area population remain uninsured (US Census Bureau, American Community Survey. 2014-18);
- Approximately **28.94%** residents in the service area receive Medicaid benefits (Kentucky Cabinet for Health and Family Services, Division of Administration and Financial Management, Medicaid Statistics, March 2020 Monthly Membership Counts by County, <https://chfs.ky.gov/agencies/dms/dafm/Pages/statistics.aspx>);
- 42.1 primary care physicians per 100,000 residents in the service area compared to the KY statewide average of 65.7 physicians per 100,00 residents (US Department of Health & Human Services, Health Resources and Services Administration, Area Health Resource File. 2014);

- 48.1 dentists per 100,00 residents in the service area compared to KY statewide average of 61.8 per 100,000 residents (US Department of Health & Human Services, Health Resources and Services Administration, Area Health Resource File. 2015);
- 157.7 mental health care provider rate per 100,000 residents of the service area compared to a KY statewide average of 203.2 per 100,000 residents (University of Wisconsin Population Health Institute, County Health Rankings. 2018).

The Audubon Area Community Services, online survey collected a total of **1317** responses during the period of July 1, 2019 through March 1, 2020, from the online and paper responses of the assessment tool located at <https://www.surveymonkey.com/r/R826JF8-AudubonCNA>.

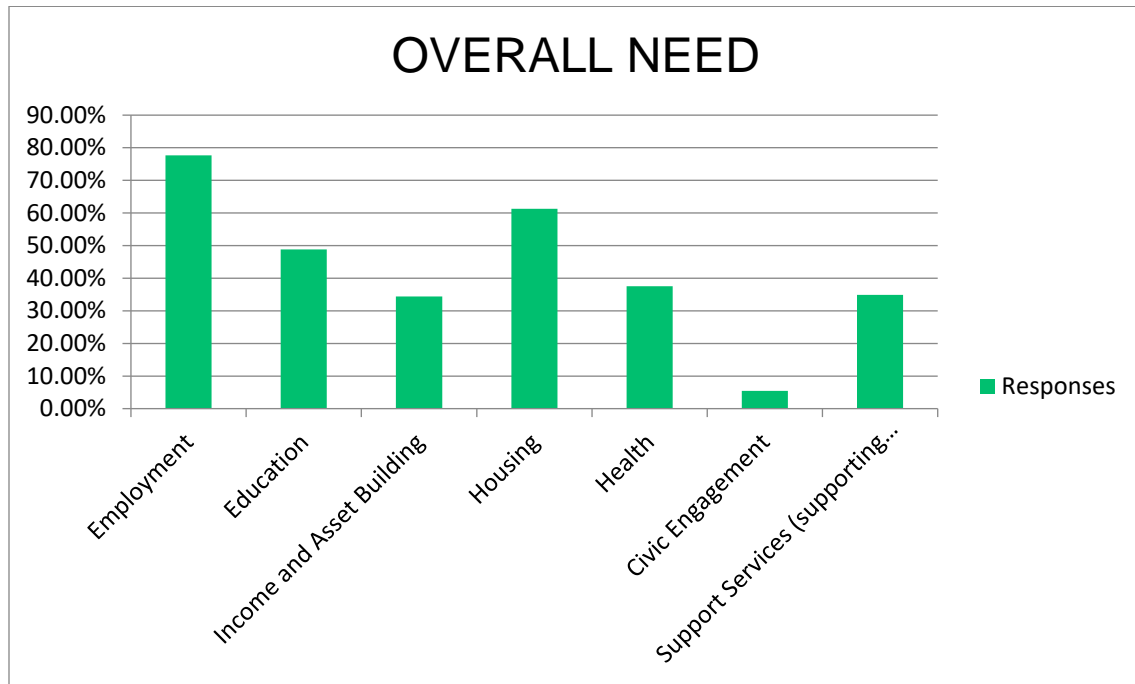

Listed below are the responses from the Audubon Area Community Services CSBG service counties:

In which county do you live or represent (for the agency)?		
Answer Choices	Responses	
Daviess	0.1678	221
Hancock	0.1541	203
Henderson	0.0516	68
McLean	0.2202	290
Ohio	0.3432	452
Union	0.0585	77
Webster	0.0046	6
	Answered	1317

Listed below are the primary concerns that emerged from survey responses, which will be analyzed more thoroughly later in this report:

Answer Choices	Responses	
Employment	77.68%	1023
Education	48.82%	643
Income and Asset Building	34.40%	453
Housing	61.28%	807
Health	37.51%	494
Civic Engagement	5.47%	72
Support Services (supporting multiple domains)	34.85%	459
	Answered	1317

Note: Responses from several survey questions combine to form an aggregate category of need. In addition, Support Services support many multiple domains including family services, case management, and emergency services (emergency food, clothing, utility assistance, and other areas of basic needs).

Community Forum Responses

Daviess County:

- Greatest Needs of the low-income: Lack of advocacy for seniors, lack of supported housing units and opportunities, lack of dental services for Medicaid participants, lack of emergency funds-liquidity, growing crime rates, lack of adequate amount of mental health and substance abuse care, lack of relative caregiver supports, growing use of smoking and vaping, lack of living wage employment, ongoing and consistent generational poverty.
- Top 5 Needs Identified: Lack of adequate amount of mental health and substance abuse care, lack of supportive housing units and opportunities, lack of dental services for Medicaid recipients, lack of living wage employment, lack of emergency funds and limited liquidity of communities
- Top Three Community Improvements to Focus: Community advocacy work with collaboration among community stakeholders and supportive programs (create a - Owensboro Daviess county Non-Profit Association), complete asset mapping of resources to support families in need, work with the Chamber of Commerce and Economic Development and private employers to enhance supportive information sharing networks and opportunities

Hancock County:

- Greatest Needs of the low-income: lack of affordable transportation services, low household income for single mothers in the county, lack of dental care for poor and Medicaid beneficiaries, lack of adequate internet services/broadband in county, lack of safe and affordable housing, lack of coordinated expungement clinics for criminal offenses, large number of children being raised by relative caregivers.
- Top 5 Needs Identified: Lack of affordable transportation, lack of living wage jobs for single mothers, lack of expungement clinics for criminal offenses, large number of children being raised by relative caregivers, lack of adequate internet services/broadband for the county.
- Top Three Community Improvements the Agency Should Focus: Locate supportive services and programs in southern part of the county with higher poverty rates, facilitate a county expungement fair in coordination with county attorney's office, develop a housing coalition with private networks and landlords to pursue housing or repair affair projects

Henderson County:

- Greatest Needs of the low-income: Food insecurity throughout the county especially with children, growing homeless population within the county, lack of safe and affordable units available, lack of living wage jobs, community misunderstandings of poverty and its impacts, lack of liquidity and financial stability, lack of adequate enough transportation services, lack of licensed child care centers
- Top 5 Needs Identified: Lack of safe and affordable units available, community misunderstandings of poverty and its impacts, lack of adequate enough transportation services, lack of licensed child care centers, lack of knowledge about the "Benefit Cliff"
- Top Three Community Improvements the Agency Should Focus: Facilitate a countywide community conversation about poverty and impacts, schedule and host a poverty simulation event for community members, develop an afterhours child care services listing for community use

McLean County:

- Greatest Needs of the low-income: Lack of living wage jobs to support families, single mothers raising children lack resources to self-sufficiency, lack of public transportation services, lack of safe and licensed childcare, lack of safe and affordable housing options, lack of substance abuse providers, lack of community discussion to use resources already available in the count, lack of providers to treat mental health issues
- Top 5 Needs Identified: Single mothers raising children lack resources to self-sufficiency, Employment training programs, lack of safe and affordable housing, lack of community discussion to use resources already available in the county, lack of transportation.
- Top Three Community Improvements the Agency Should Focus: Convene a community discussion regarding needs, facilitate a discussion with churches, ministerial association and businesses about child care needs and assets, and planning; review county assets and entities

and facilitate a meeting regarding how stakeholder that may be able to assist with transportation

Union County:

- Greatest Needs of the low-income: Lack of public transportation throughout county, lack of medical services throughout the county, lack of safe and affordable housing, lack of basic living skills due to cycle of poverty, lack of living wage jobs, lack of substance abuse and recovery services including mental health, lack of volunteer work force, lack of vocational training services and education, high amount of kinship care and foster care for youth in county
- Top 5 Needs Identified: Lack of public transportation throughout county, lack of medical services throughout county, lack of safe and affordable housing, basic living skills - cycle of poverty, lack of basic living skills due to cycle of poverty, lack of substance abuse and recovery services including mental health, lack of volunteer opportunities in the county, lack of vocational training services and education, high amount of kinship care and foster care for youth in county
- Top Three Community Improvements the Agency Should Focus: Facilitate community education and outreach for Job Corps technical programming up to age 24, develop soft skills/case management programming regarding finances and budgeting, hosting a recovery resource meeting to take inventory of resources for substance abuse and recovery programs and send out information.

Webster County:

- Greatest Needs of the low-income: Substantial unemployment rate, lack of living wage jobs, lack of safe affordable licensed childcare, growing substance use disorders, lack of treatment providers in county; lack of safe and affordable housing, lack of public transportation services; lack of adequate nutrition/food services; lack of basic needs like food/clothing/shelter for citizens
- Top 5 Needs Identified: Lack of suitable employment opportunities and underemployment; lack of affordable and available public transportation services; lack of substance use disorder treatment and recovery programs; lack of affordable and safe housing options; and lack of basic living needs like food and emergency shelter in the county.
- Top Three Community Improvements the Agency Should Focus: Organize and coordinate community resource groups/meetings in each larger city in county to coordinate outreach services for citizens; development of substance use disorder and recovery provider directory and identify provider to share with citizens; community partner forum/discussion with focus on retraining and economic development to include Audubon Area, GRADD, Chamber of Commerce, KCTCS, and private business in the county by 2021

*Note that the Ohio County Community Forum scheduled for March 19, 2020 was cancelled due to the COVID-19 outbreak and unable to be completed prior to the completion of this needs assessment.

Analysis of Forum Responses

In each county of the Audubon Area Community Services CSBG service area, focus groups felt there was a lack of coordinated services and communications that are targeted toward collaboration opportunities to inform the local population and inform of services. Specifically, there were multiple groups vocalizing a lack of coordinated community services providers working toward targeted goals such as child care, asset building, workforce development, and transportation services. Multiple counties expressed concern regarding lack of coordinated care or lack of knowledge of available resources for communities to access. In many instances, Audubon Area Community Services staff were requested to facilitate asset mapping exercises and larger scale community discussions to target assets and produce tangible results for access in each community. Audubon Area can coordinate with stakeholders like the two United Way entities in the coming year to work on this outcome.

Housing needs and growing homelessness needs in the region was a consistent need of all counties and was the largest targeted need based upon quantitative and qualitative research. HUD funding opportunities are not easily accessible, therefore, more homegrown options and collaborative sharing projects, like what was mentioned in both Hancock and Henderson County forums may be a more viable suggestion.

Lack of affordable and consistent transportation services was a targeted need in six of seven county forums. In particular, the issue of flexibility availability and off-working hours, like evening/second and third shift hours and rural transportation and regular rural transportation routes for the local workforce to sustain employment. GRITS transportation program administrators and administrative Audubon Area Community Services staff will work to convene meetings with county officials to further discuss issues and possible solutions.

Local economies, according to most participants, are somewhat stagnate and most counties lack employers offering adequate living wage employment opportunities.² Associated in most forums were a lack of supportive services that would increase the employment abilities of the citizens, particularly child care services and job and technical skill training services, as well as joint discussions among workforce and economic development and local chambers of commerce.

In addition, there appears to be an increase in difficulties for families to meet daily basic needs: adequate food supplies, emergency energy assistance, and coordinated social support programs. These options appear to warrant further study and collaboration among partners toward targeted solutions.

Lack of mental health and substance abuse services was a prevalent concern in all communities. Although the Green River Area is not plagued with the significant opioid abuse epidemic other parts of the state, the region is still battling substance abuse issues of its own around alcohol and methamphetamine abuse. Without resources to combat substance use disorders and a growth in providers trained to assist impacted citizens of the area, mental health issues and substance abuse disorders will continue to damage families and communities in the coming years.

² <http://livingwage.mit.edu/states/21> Kentucky living wage for a full-time working adult with two children is \$29.01 per hour.

Finally, in closing, we would be remiss to look passed the current state of affairs and the COVID-19 outbreak. With federal and state guidance to stay in place, record unemployment and layoffs occurring daily, and an economy screeching to a halt, the needs of the low income, and or, the new temporarily low income will reach a heightened pitch in the coming days. Agencies such as Audubon Area Community Services, and other community partners, with focus toward emergency needs, food resources, utility assistance, multiple support platforms, and transportation programming, will become critical in helping the community push itself forward. As funding mechanisms come into place, a coordinated community response with other service oriented entities and state and local government will be vital to helping communities get back on their feet in the days and months to come.

II. CONSOLIDATED DATA OF SERVICE REGION

DEMOGRAPHIC DATA

a) POPULATION DESCRIPTION AND PROJECTED GROWTH

Total Population

A total of 216,152 people live in the 2,597.32 square mile report area defined for this assessment according to the U.S. Census Bureau American Community Survey 2014-18 5-year estimates. The population density for this area, estimated at 83.22 persons per square mile, is less than the national average population density of 91.42 persons per square mile.

Report Area	Total Population	Total Land Area	Population Density (Per Square Mile)
Report Location	216,152	2,597.32	83.22
Daviess County, KY	99,937	458.39	218.02

Change in Total Population

According to the United States Census Bureau Decennial Census, between 2000 and 2010 the population in the report area grew by 6,095 persons, a change of 2.94%. A significant positive or negative shift in total population over time impacts healthcare providers and the utilization of community resources.

Report Area	Total Population, 2000 Census	Total Population, 2010 Census	Total Population Change, 2000-2010	Percent Population Change, 2000-2010

Population Under Age 18

An estimated 23.80% of the population in the report area is under the age of 18 according to the U.S. Census Bureau American Community Survey 2014-18 5-year estimates. An estimated total of 51,437 youths resided in the area during this time period. The number of persons under age 18 is relevant because this population has unique health needs which should be considered separately from other age groups.

Report Area	Total Population	Population Age 0-17	Percent Population Age

Population Age 18-64

This indicator reports the percentage of population age 18-64 in the designated geographic area. This indicator is relevant because it is important to understand the percentage of adults in the community, as this population has unique health needs which should be considered separately from other age groups.

Report Area	Total Population	Population Age 18-64	Percent
Report	216,152	128,686	59.53%

Population Age 65+

An estimated 16.42% of the population in the report area is age 65 or older according to the U.S. Census Bureau American Community Survey 2013-17 5-year estimates. An estimated total of 35,422 older adults resided in the area during this time period. The number of persons age 65 or older is relevant because this population has unique health needs which should be considered separately from other age groups.

b) HOUSEHOLDS AND FAMILIES

Population in Limited English Households

This indicator reports the percentage of the population aged 5 and older living in Limited English speaking households. A “Limited English speaking household” is one in which no member 14 years old and over (1) speaks only English at home or (2) speaks a language other than English at home and speaks English “Very well.” This indicator is significant as it identifies households and populations that may need English-language assistance.

Report Area	Total Population Age 5+	Linguistically Isolated Population	Percent Linguistically Isolated Population
Report Location	202,579	1,760	0.87%
Daviess County,	93,192	1,190	1.28%

United States	303,066,180	13,181,780	4.35%

Note: This indicator is compared to the state average (1.34%).

Data Source: US Census Bureau, American Community Survey. 2014-18. Source geography: Tract

Household Composition

This indicator reports the total number and percentage of households by composition (married couple family, nonfamily, etc.). According to the American Community Survey subject definitions, a family household is any housing unit in which the householder is living with one or more individuals related to him or her by birth, marriage, or adoption*. A non-family household is any household occupied by the householder alone, or by the householder and one or more unrelated individuals.

**Family households and married-couple families do not include same-sex married couples even if the marriage was performed in a state issuing marriage certificates for same-sex couples. Same sex couple households are included in the family households category if there is at least one additional person related to the householder by birth or adoption.*

Report Area	Total Households	Family Households	Family Households, Percent	Non-Family Households	Non-Family Households, Percent
Report	84,923	57,459	67.66%	27,464	32.34%

c) SOCIAL AND ECONOMIC STATUS OF THE SERVICE AREA

Economic and social insecurity often are associated with poor health. Poverty, unemployment, and lack of educational achievement affect access to care and a community's ability to engage in healthy behaviors. Without a network of support and a safe community, families cannot thrive. Ensuring access to social and economic resources provides a foundation for a healthy community.

III. COUNTY SPECIFIC INFORMATION

DAVIESS COUNTY

1. BRIEF HISTORY

Daviess County, the 58th county in order of formation, was formed from a part of Ohio County in 1815. It was named in honor of Colonel Joseph Hamilton Daviess, an area landowner and lawyer killed at the Battle of Tippecanoe. The enrolling clerk misspelled the county's name, a mistake later corrected by the General Assembly, but the error continues. The residents were Confederates, and before the Civil War, more than 20 percent of the county's population was slaves. Woodworking industries thrived in heavily timbered areas until the draining of the Panther Creek bottoms in the 1920's.

Nearly half of the population lives in or near Owensboro, the county seat. Today the county is part of the Corn Belt area, where most of the country's corn is grown.

2. GEOGRAPHIC DESCRIPTION

Located completely within the Western Kentucky Coal Field, Daviess County is bordered to the north by the Ohio River, and adjoins Hancock, Ohio, McLean, and Henderson Counties. Its 463 square miles are mostly land used agriculturally.

Callers may remain anonymous and receive help from trained telephone counselors. The guiding principle is that crisis intervention will prevent the development of more serious problems.

HANCOCK COUNTY

1. BRIEF HISTORY

Hancock County is the 83rd county in order of formation. It was formed on January 3, 1829, from parts of Ohio, Breckinridge, and Daviess counties and named in honor of John Hancock, president of the Continental Congress and signer of the Declaration of Independence. Early settlers farmed the land and mined coal.

The population peaked in the 1890's, when the coal and timber industries were stimulated by the crossing of the railroad through the county. Soon residents started leaving due to soil erosion, the lure of city jobs, and new coal developments elsewhere. Hancock County was transformed in the 1950's with the opening of several plants, making it one of the most industrialized rural counties in the state.

Hawesville, in the northern part of the county along the Ohio River, has been the county seat since 1829.

2. GEOGRAPHIC DESCRIPTION

Hancock County is located in the Western Coal Field region of the state along the Ohio River. It is bordered by Daviess, Ohio, and Breckinridge counties and has an area of 189 square miles.

3. LOCATION OF OFFICES

Hancock County Community Services Office
225 Main Cross Street
Hawesville, KY 42348

Callers may remain anonymous and receive help from trained telephone counselors. The guiding principle is that crisis intervention will prevent the development of more serious problems.

HENDERSON COUNTY

1. BRIEF HISTORY

Henderson County is the 38th county in order of formation. It was first settled around 1791. Settlers were initially deterred by Indians and outlaws, but were eventually drawn to the area's rich farming land. In the early 1800's, the county seat, Henderson, was made an inspection point for tobacco and other products that shipped out of the region on the neighboring Ohio River. During the Civil War, the county was subjected to Confederate raids and occasional Union occupation.

In the 1930's, before the advent of interstate highways, Henderson County was a stopping point on one of the most heavily-traveled north-south roads. As a result of the tourist traffic, the John James Audubon State Park was established. The namesake county seat of Henderson sits on along the Ohio River on the northern portion of the county.

2. GEOGRAPHIC DESCRIPTION

Henderson County is located just south of the Ohio River, and also shares borders with Daviess, McLean, Webster, and Union counties. The county covers 438 square miles which range from level floodplains to gently rolling hills.

Community Mental Health Center; mental health services and referrals; 48 permanent housing beds. The 24/7 crisis intervention, information, and referral service is provided free of charge to individuals seeking help. This service is also equipped with TDD (Device for the Deaf). Callers may remain anonymous and receive help from trained telephone counselors. The guiding principle is that crisis intervention will prevent the development of more serious problems.

MCLEAN COUNTY

1. BRIEF HISTORY

McLean County is the 103rd county in order of formation. It was named after Alney McLean, a veteran of the War of 1812, state representative and congressman. The county's varied history includes Indian attacks on the first settlers, who retreated to caves they dug in the hillside near present-day Calhoun; riverboat traffic on the Green River; several Civil War conflicts; and the dubious honor of being the home of the first United States casualty during World War I. The county seat is Calhoun.

2. GEOGRAPHIC DESCRIPTION

McLean County's 256 square miles are at the heart of the Western Coal Field Region. The county is bordered by Daviess, Ohio, Muhlenberg, Hopkins, Webster, and Henderson Counties. The Green River forms a portion of the eastern border and dissects the county.

OHIO COUNTY

1. BRIEF HISTORY

Ohio County is the 35th county in order of formation. The county was established from part of Hardin County on December 17, 1798, and was named for the Ohio River, which formed its northern boundary until Daviess County (1815) and Hancock County (1829) were created from it. Daniel Boone was one of the first explorers in the area. Early pioneers had to contend with attacking Indians, anxious to protect their long-held land. In the 1930's excavations at the Indian Knoll burial mounds yielded over 1,200 skeletons.

River traffic on the Green and Rough rivers is credited with the county's early growth. This was disrupted by the Civil War and virtually ended with the arrival of the railroad in the 1870's.

The economy is a mixture of coal mining, agriculture, and oil. The county seat is Hartford.

2. GEOGRAPHIC DESCRIPTION

Ohio County is in the Western Coal Field Region of Kentucky, surrounded by Breckinridge, Hancock, Grayson, Butler, Muhlenberg, McLean, and Daviess counties. Its square miles total 596. The county's topography is undulating and well suited for agriculture.

Callers may remain anonymous and receive help from trained telephone counselors. The guiding principle is that crisis intervention will prevent the development of more serious problems.

UNION COUNTY

1. BRIEF HISTORY

Union County is the 56th county in order of formation. It was formed from part of Henderson County on January 15, 1811, and was probably named for the unanimous agreement of its citizens to create a new county. Morganfield is the county seat. Union County was settled during the westward migration following the Revolutionary War. The county had a considerable slave population prior to the Civil War, and in 1862, Union troops took all residents of Caseyville prisoners on charges of treason. During World War II, more than 1,300 prisoners of war were interned at the Camp Breckinridge Training Center.

The county is the site of numerous Indian burial and ceremonial mounds. After the desecration of more than 1,000 graves in 1987, which prompted the Kentucky General Assembly to make such looting a class D felony, several hundred Indians conducted a reburial service.

2. GEOGRAPHIC DESCRIPTION

Union County is bordered by Henderson, Webster, and Crittenden counties, and to the west by the Ohio River. Union County covers an area of 343 square miles, ranging from level to hilly. Most of the land is used for agricultural purposes, to which it is well suited.

Community Mental Health Center; mental health services and referrals; 48 permanent housing beds.

The 24/7 crisis intervention, information, and referral service is provided free of charge to individuals seeking help.

WEBSTER COUNTY

1. BRIEF HISTORY

Webster County is the 109th county in order of formation. The county was created on July 1, 1860, from portions of Henderson, Hopkins, and Union counties and was named for Daniel Webster, U.S.

Congressman, Senator, and Secretary of State. The county seat is Dixon.

Webster County was probably settled by Revolutionary War veteran William Jenkins. Kentucky's first battle of the Civil War, the Battle of Burnt Mill, was fought in the county.

Webster County's prosperity depends on its fertile land and natural resources. Surface mining is vital to the local economy, and 90 percent of the farming income is derived from corn and soybean production. Dixon has been the county seat since the county's creation in 1861. However, Providence is the largest community, home to almost a third of Webster County's residents.

2. GEOGRAPHIC DESCRIPTION

Webster County is surrounded by Henderson, McLean, Hopkins, Crittenden, and Union counties. Its eastern border of the Green River and its western border of the Tradewater River are divided by a ridge that runs through the middle of the county. The ridge divides the watersheds of the two rivers. Webster County's square miles total 336.
